

# ITConsult strengthens its Microsoft Dynamics capabilities through partner acquisition and key hires

ITConsultMonday, August 30th, 2021

Sydney - August 30, 2021 — The IT Consultancy Group (ITConsult), a leading independent Cloud, ERP and Managed Services Provider, is pleased to announce they have extended their Microsoft ERP capabilities by acquiring BCPrise, a boutique Microsoft Dynamics 365 Business Central (Business Central) implementation and consulting partner.

To further enhance their ERP successes in the Retail market, ITConsult has onboarded and welcomed a number of consultants from the retail business management software company, LS Retail, to their team. LS Retail is a world-leading developer and provider of unified commerce software for retail, hospitality, food service, pharmacy and forecourt businesses based on Business Central. LS Retail is Microsoft's leading Retail ISV Globally.

Qiping Sun, LS Retail, Regional Vice President, APAC said: "We are excited and extremely proud of our partnership with ITConsult. They are a team of passionate experts with substantial hands-on experience in deploying LS Retail's Unified Commerce Solutions infused with Business Intelligence. By working with ITConsult for the ANZ and Pacific Islands market, we strive to deliver our solutions in highest standard, with increased capacity and efficiency."

For over 20 years, ITConsult has been helping clients derive the most from their technology investments, while at the same time protecting their digital assets.

Managing Director Stephen Parsonage said: "Acquiring BCPrise and our strategic investment in onboarding a number of LS Retail consultants directly to our team, strengthens our Microsoft capabilities within its Modern Enterprise offerings. The expertise and skills of our LS Retail consultants put us in a strong position to offer end to end technology solutions from the datacenter to the desktop for High Performance Retailers."

Kelly French, Head of Technology for the Galati Group which operates the Spudshed business in Western Australia, says: "ITConsult, with its expanding capability, is a valued business partner. It's great to have a single solutions provider who truly understands the retail sector and our chosen technology platforms. This is a powerful combination for us."
